### ✦ Making your campfire ✦

1. Cut out “logs” from your cardboard box and arrange these with the cardboard tubes to create the base of your fire.
2. Use scissors to cut out “flames” from your colored paper. Arrange and tape the paper to resemble flames on top of your base.
3. Insert a flashlight or LED candle underneath the fire to create a glowing effect.
4. Gather up your blankets and pillows, placing them around the fire to create super cozy seating.
5. Turn off overhead lights to start your campfire storytelling and snacking!
